EDUCATION

- **The University of Chicago Booth School of Business** — Chicago, IL
  Master in Finance, Scholarship Recipient — Aug 2025 - Dec 2026
  Specializations: Fintech & Asset Management — **GPA: 3.9/4.0**
- **University of Illinois Urbana-Champaign** — Champaign, IL
  Bachelor of Science in Finance and Consumer Economics — Aug 2022 - May 2025
  Bachelor of Science in Statistics, Minor in Computer Science — **GPA: 4.0/4.0**

Dean's Honor List (All Semesters) & **James Scholar** Honors Program & **Bronze Tablet** (Top 3%) & **Summa Cum Laude**

EXPERIENCE

- **Bioinformagics** | *Summer Associate, Product Strategy & Business Development* — *Shenzhen, China* | Jun 2026 – Present
  - Drove market expansion across North America, Southeast Asia, and Australia by identifying and engaging strategic partners, leading commercial negotiations, and securing multiple deals with a combined value of US$3–5M
  - Conducted market and competitive analyses across pet genetics and adjacent product categories; built pricing and unit-economics models that informed product packaging, partnership terms, and regional go-to-market strategies
  - Redesigned the end-to-end genetic testing workflow across sample intake, laboratory coordination, data analysis, and report delivery; built a standardized operating pipeline that reduced turnaround time by 29% and increased monthly processing capacity by 15%
- **Twilio** | *UserTesting Leader* — *Chicago, IL* | Mar 2026 – Jun 2026
  - Led consumer research on Gen Z digital communication, identity verification, and in-channel payment behaviors through interviews; identified core friction points driving task abandonment, trust breakdown, and channel avoidance
  - Built a market space assessment across CPaaS competitors, platform ecosystems, and substitutes including RCS, WhatsApp, Apple Pay, and Venmo; evaluated competitive dynamics and surfaced defensible white-space opportunities for Twilio
  - Translated research insights into product concepts and prioritization hypotheses for Twilio, focusing on contextual messaging, adaptive authentication, and trusted in-channel transaction experiences
- **OCBridge** | *Product Intern* — *San Jose, CA* | Dec 2025 – Feb 2026
  - Conducted 10+ user interviews and competitive analyses, identifying customer needs and feature gaps that informed a pivot toward automated personalization
  - Partnered with founders to define requirements and success metrics for an end-to-end AI sourcing workflow (Search → Outreach → Shortlist), aligning product scope with recruiter workflows and business goals
  - Built an Excel and SQL conversion-funnel dashboard, identifying search-to-outreach bottlenecks that informed a product pivot and increased shortlist conversion by 18%
- **KWS Cereals USA LLC** | *Agricultural Data Analyst Intern* — *Champaign, IL* | May 2024 - Aug 2024
  - Built and optimized Python-based data pipelines for plot tracking, reducing data entry errors by 30%
  - Applied regression and experimental design methods to guide next-generation wheat breeding strategies, supporting a 5% increase in trial success rates
- **Boston Consulting Group** | *Investment Advisor Intern* — *Shanghai, China* | Sep 2022 - Dec 2022
  - Led DCF & market-sizing analyses across biotech and ag-tech; findings shaped a US$5M capital-deployment recommendation
  - Developed client-ready presentations and briefing materials, streamlining preparation time by 20%
  - Sourced and vetted 10+ partners, strengthening cross-border investment opportunities

RESEARCH EXPERIENCE

- **Cornell University** | *Research Assist*ant — Apr 2024 - May 2025
  - Built an OpenCV and PyTorch computer-vision pipeline that auto-extracted structured fields from 50k+ PPP (Public-Private Partnership) contracts, cutting manual coding hours by 60%
  - Delivered panel-data regressions on PPP projects, underpinning white-paper recommendations to national policymakers

ADDITIONAL

- **Technical**: Python, C++, Java, JavaScript, R, SQL, HTML, CSS, MATLAB
- **Tools**: Linux, React.js, Vue.js, Node.js, Django, Git, GCP, Docker, PyTorch, LangChain, Scikit-Learn, NumPy, Power BI, Stata
- **Concepts**: Prompt Engineering, Experiment Design, Hypothesis Testing, Causal Inference, Time Series Analysis, Feature Engineering
- **Interests**: Fighting Illini Football, Soccer, Running, Go, Poker, Pour-Over Coffee
